Title

Profile of touch-down solution to a non-local MEMS model

Abstract:

In this talk, I am at showing the construction of solutions with extinction (touch-down) for the equation of MEMS devices (Micro-electromechanical systems). In addition to that, we also describe the asymptotic behavior of the solution at the extinction domain.

Miércoles 21 de agosto a las 16:00 hrs, Sala de Seminarios Felipe Álvarez Daziano, 5to piso, Torre Norte de Beauchef 851.
