TITULO

History of Conics.

ABSTRACT:

We shall discuss the history of the conics sections from the very beginning (350 BC) to Newton (1685) and their applications to equilibria, optics and celestial mechanics.

TITULO

Teaching conics sections at the school.

ABSTRACT:

We discuss a possible way of teaching conics sections at the level of the grade 6 and 7 of the elementary school through experimental mathematics in optics and equilibria.

Miércoles 20 de Enero a las 17:00 hrs, en la Sala de Seminarios DIM 5to piso, Beauchef 851, Torre Norte.
