

## Seminario de Grafos

**Expositor/a:** Georgios Kontogeorgiou (CMM)

**Title:** Coarse Graph Theory II - The Answers

**Abstract:** On 14/5 I gave a talk revolving around the fat minor conjecture. On 15/5 a paper appeared on Arxiv claiming to disprove it. I will report on this new development and I will attempt to offer a comprehensive view of the new questions that it raises, such as "Is this for real?" and "What now?".

**Lugar/hora:** Martes 28 de mayo, 2024 / 14.00-15.00 hrs. Sala John Von Neumann (7° Piso).
